

# The Dollars & Sense of using Ki

*for recruiting and physician  
relationship intelligence*

*Did you know. . .*

- it can cost a hospital up to \$150k for every month a key physician opening is not filled?
- recruiters are spending over 1/2 billion dollars per year hiring recruiting firms to do the job **Ki** could do for them at a fraction of the cost?
- keeping a top producer on your staff for just one month longer will net an average of \$50,000?
- half of the physicians recruited in America today are recruited by health systems using Ki?
- leading healthcare systems in the U.S. are using Ki right now to track and manage every aspect of their medical staff development and relationship building?
