

Change is Good.

Introducing exciting new changes to the leading web-based **software for physician recruiting and retention**. It's KiNextGen.

New Home Page

- Recruitment Status Funnel Report
- Candidate Activity Status Doughnut Report

Top Menu Bar

- New look and feel
- Easier navigation
- Easier to go to your recent records

New Button Formats

- Change from an "E" button to a pencil icon
- Change from an "X" button to a trash can icon

Email Icons

- Ability to email via KI or default client

Creating Mailing List

- List for date of birth updated to reflect month only
- Number of contacts found at top and bottom

Editing Mailing List

- Identification of invalid email formats
- Ability to edit email addresses directly from the list
- Date reflected when contacts are added to a list
- Charts to see how many contacts are included from each category

Email Section in General

- Attach files are now on same page verses a pop up
- Emails sent to a single Candidate/Staff will now appear as a note

Create Staff Member

- Ability to create a Staff Member and a Contact with one entry
